## PED – What Is It?

- ◆ The Department providing project context.
- ◆ It is an opportunity to inform the ETAT, the public, and other agencies, as appropriate of unique project and alternative
- ◆ To communicate what we know relative to the specific:
  - Project
  - Alternative
  - Issue
- ◆ We ask the ETAT to:
  - confirm our understanding,
  - refine our understanding
  - Tell us what we are missing
- ◆ PED provides reviewing agencies with context to aid them in providing actionable comments.

## ***PED – What Is It?***

- ◆ Opportunity to identify
  - resources we know about and whether we might come in contact with them (or not)
  - Coordination requirements
  - Technical studies
  - Permits

---

---

---

---

---

---

---

---

## ***PED – Purpose***

- ◆ We are sharing information, not indicating a finding.
- ◆ It is an initial assessment of a project's potential effects to the environment and how the District intends to address or evaluate these effects as the project advances.
- ◆ It gives the District the opportunity to do a better job of communicating what is known.
- ◆ PED provides reviewing agencies with context to aid them in providing actionable comments.
- ◆ Asking reviewing agencies to respond to our impression.

---

---

---

---

---

---

## ***PED – When is it Required?***

- ◆ PEDs are provided on every project screened
- ◆ PEDs are presented to ETAT as they provide comments
- ◆ PEDs are reused and a part of the Advance Notification Package

### Community Facilities

The community facilities information below is useful in a variety of ways for environmental evaluations. These community resources should be evaluated for potential sociocultural effects, such as accessibility, and relocation potential. The facility types may indicate the types of population groups present in the project study area. Facility staff and leaders can be sources of community information such as who uses the facility and how it is used. Additionally, community facilities are potential public meeting venues.
